for AU & NZ:**1 September
2026

EconX® Remanufactured Parts

Genuine Performance. Smart Value.

The professional choice for commercial vehicle workshops

Genuine Quality – 100% Knorr-Bremse Expertise

EconX® products are developed, tested, and manufactured according to the same OE specifications as Knorr-Bremse new parts. Only housings that meet all specifications continue in the process – each is reused exactly once. Each product undergoes complete disassembly, precise measurement, cleaning, reconditioning, and testing procedures.

Proven Cost Efficiency

Durable components, reduced workshop time, and full core return options support attractive total cost of ownership. EconX® is the Knorr-Bremse brand for genuine remanufactured products that keep older trucks and trailers safely on the road. With a cheaper price and a shorter lifespan, EconX® products help to optimise the total cost of ownership of a vehicle – and are used whenever an older vehicle has already covered a number of kilometres and a new service part is not an economically viable option.

Sustainability Meets Performance

Remanufacturing is the industrial reconditioning of cores (used products) and thus the highest form of recycling and circular economy. EconX® extends material lifecycle and reduces raw material usage, energy consumption, and CO₂ emissions. A perfect solution for fleets balancing performance and environmental responsibility.

The Reliable Choice for Every Workshop

EconX® products are the ideal solution when workshops

Want fully compatible
Knorr-Bremse system components

Prioritize long-term
functional reliability

Value proven OE engineering
in the independent aftermarket

Require attractive, cost-effective
repair options for their customers

EconX® Product Range for Australia & New Zealand

The listed parts represent a selection of the globally available EconX® range featured in the initial AU & NZ launch, with additional products to be introduced in future rollouts.

Electronic Clutch Actuators

Warranty: 12 months

Core Return Process:

Customers receive a deposit refund when returning a core (used product), provided it is returned within 12 months. An **18-month core holiday** applies at program start:

- Cores can be collected and stored by distributors and customers. No returns to Knorr-Bremse accepted during this period.
- After the core holiday: Core returns are accepted and core charges apply based on newly invoiced products.
- Exception: **Cartridges are excluded** – no core charges apply at any time.
